

## ERA SCOREBOARD 2024 KEY TAKEAWAYS

Since 2010, there has been major progress in several priority areas across the European Research Area.

## Growing commitment to the European Research Area objectives

Research outputs are more open and accessible

The number of researchers increased

Environment-related innovation is being funded in critical sectors

Research collaboration is on the rise through EU-funded programmes

## Maintaining momentum for a stronger European Research Area

Eliminate remaining R&D

investment gaps across countries

Boost R&D funding and support for countries with lower R&D investment
