

ERA DASHBOARD 2024

KEY TAKEAWAYS

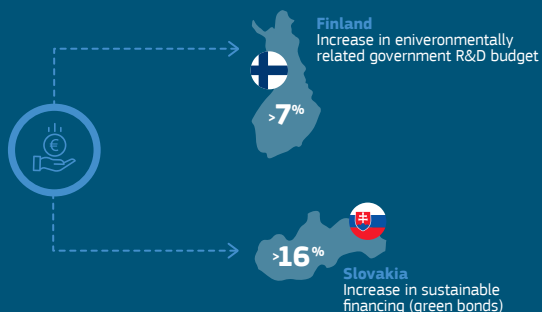

Throughout the European Research Area (ERA), countries have shown ample progress in gender representation, public & private R&D funding, international collaboration, open science, and tech competitiveness.

A GLIMPSE OF COUNTRY PERFORMANCE ACROSS 4 ERA PRIORITY AREAS

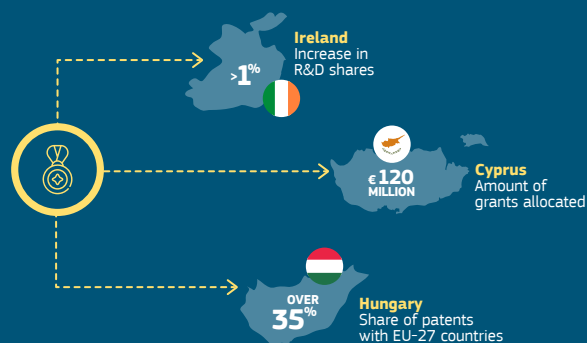

PRIORITY 1 Deepening a truly functioning internal market for knowledge

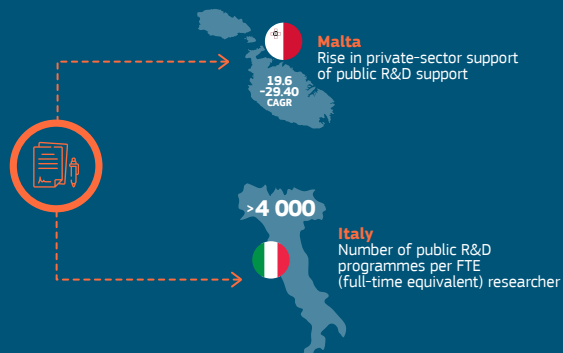

PRIORITY 2 Green & digital transition

PRIORITY 3 Enhancing access to R&I excellence across the Union

PRIORITY 4 Advancing concerted R&I investments and reforms

Nevertheless,
more improvement
can be made to...

Foster inclusivity and mobility for researchers regardless of nationality, gender or other identification

Enhance direct and indirect government support through R&D tax incentives

Remove obstacles to collaboration between innovative firms and cross-border research-performing organisations
